

Louis Emilien Surette

Full Stack Engineer | Process Improvement | React, Python & Power Platform

2 Main Street Apt 002, Toronto, ON, M4E 0B5

(647) 763-3532

louis.emilien.surette@gmail.com

Portfolio: <https://louissurette.ca/>

Education

Toronto Metropolitan University (TMU) - *(June 2026)*

Certificate in Full Stack Development

University of Mauritius *(June 2016)*

Bachelor's Degree in Chemical and Renewable Energy Engineering | First Class GPA: 3.49

Technical Skills

Languages & Frameworks:

JavaScript (ES6+), Node.js, TypeScript, Angular, React, HTML5, CSS3, Python, Flask

Backend & APIs:

REST APIs, API Integration, CRUD Operations, Authentication & Authorization, Multi-Tier Architecture, Microservices Concepts

Automation & Enterprise Platforms:

Power Apps, Power Automate, SharePoint Framework (SPFx), SharePoint REST API, Workflow Automation, Business Process Automation

Databases:

SQL, MySQL, Azure SQL, PostgreSQL, MongoDB, SharePoint Online, Database Development and Design, Data Processing

Development Tools & Practices:

Git, GitHub, Agile/Scrum, Jira, Confluence, CI/CD Concepts, Software Testing, Debugging, Performance Optimization

Systems & Cloud:

Unix/Linux, Microsoft 365, Cloud-Based Application Concepts

Software Development Practices:

Debugging, Software Testing, Performance Optimization, Agile development Methodologies, Cross-Functional Collaboration

Certifications

PMP® - PMI | User Experience (UX) - Accenture | Web Design & Development - LinkedIn | AI Prompt Engineering - LinkedIn | Generative AI for Project Managers - PMI

Professional Summary

Full Stack Developer with 9 years of experience developing enterprise applications, mobile applications, workflow automation solutions, and scalable business platforms. Experienced in React, TypeScript, JavaScript, REST APIs, MS SQL Server, SharePoint Framework (SPFx), and Microsoft Power Platform for software development to automate business-critical processes and improve operational efficiency.

Skilled in front-end and back-end development, API integrations, responsive UI design, and enterprise workflow automation across Agile environments. Strong communication and teamwork skills, Experienced collaborating with cross-functional stakeholders to deliver scalable solutions, optimize user workflows, and support continuous improvement initiatives.

Strong willingness to learn full stack technologies and best practices including Agile methodologies, testing, debugging, CI/CD concepts, and secure application design. Bilingual in English and French.

Professional Experience

1. Kingsdale Advisors Toronto, ON

Senior Data Engineer and Digital Specialist (Jan 2026 - Present)

- Designed and maintained scalable data processing pipelines and automation workflows for enterprise reporting and analytics systems.
- Developed end-to-end automation services integrating Power Platform, SharePoint, and business logic workflows, reducing manual processing time by 90% (45 minutes per user per day).
- Developed a full-stack enterprise performance review application using Power Apps, SharePoint, and Power Automate, implementing role-based access control, secure data handling, workflow automation, and HR analytics dashboards.

Data Engineer (Jul 2022 - Jan 2026)

- Developed and maintained enterprise web applications using SPFx, TypeScript, JavaScript, SharePoint REST APIs, and Power Platform services, implementing responsive UI components and backend workflow integrations.
- Collaborated with cross-functional stakeholders to design scalable business applications and optimize user workflows across internal platforms.
- Participated in debugging, testing, and deployment of client-facing microsites and internal applications using Git-based development workflows.
- Designed and deployed client microsites for AGMs and special meetings using Wix Velo (JavaScript, HTML, and CSS), enhancing client engagement and integrated with internal data workflows.

Bilingual Call Centre Representative (Feb 2022 - Jul 2022)

- Delivered bilingual (English/French) support while maintaining accurate customer data in Excel, five9 CRM and SharePoint Online.

2. Green Yellow Ltd Beau-Plan, Mauritius

Project Engineer (Oct 2020 - May 2021)

- Designed automated Excel dashboards to visualize solar plant data (0.5–50 MWp), reducing reporting time by 2–3 hours per report.
- Coordinated with cross-functional teams to prioritize resources for high-impact projects using data-driven insights.

3. Synnove Energy Ltd Bagatelle, Mauritius

Junior Engineer (Aug 2016 - Aug 2017) & Project Engineer (Aug 2017 - Aug 2020)

- Automated performance reports using Excel VBA and formulas, improving accuracy and consistency.
- Built data-tracking reports for energy production monitoring and fault detection, and develop technical documentation for maintenance.
- Implemented task-tracking dashboard to optimised construction project progress and equipment maintenance.
